Introduction

This is a report of State activity in the Food Stamp Program. The data contained herein is State reported data or data calculated from State reported data.

The tables are based on data for all of Fiscal Year 2000. March 2001 was set as the cutoff date for receipt of data for the States through the established reporting channels. It should be noted that the FNS-366B data is by State fiscal year, which varies among the States. In a few instances, the data is still being collected or refined.

As may be expected in a report of this size and taken from multiple data sources, there are some apparent discrepancies in reported data. Most discrepancies are due to compiling the data at different times and from different data sources within the State. The notation on each table identifying the data source is provided to assist the reader. The data was compiled from the National Data Bank, the official repository of Food Stamp Program data. This data was prepared by the State Administration Branch of the Program Accountability Division.

We have again included a recipient claims table which reports on the methods used by State agencies to collect claims against recipient households. Some of the data included in the recipient claims table is derived from tax offset weekly statistical reports prepared by the U. S. Department of the Treasury. We have also included data on disqualified recipients from our Disqualified Recipient Subsystem, a Federal database which provides information on disqualified recipients to State agencies. In addition, a "Rankings" section again has been included in the report. That section contains tables which rank participation and issuance data, from high to low, for each State for FY 2000.

We also wish to point out that selected program statistical data and updates on electronic benefit transfer State status are available on the Food Stamp Program web page at www.fns.usda.gov/fsp.

If there are any questions concerning the data in this publication, contact:

Notable Trends

Participation and Issuance

In fiscal year (FY) 2000, State agencies issued approximately \$15.0 billion in food stamp benefits to a monthly average 7.3 million households or 17.2 million people participating in the Food Stamp Program (FSP). The average monthly benefit was \$72.79 per person or \$170.32 per household. The Federal Government pays 100 percent of the benefits. In FY 2000, participation declined 5 percent from 18.2 million people the previous year, and issuance declined 5 percent from \$15.8 billion in FY 1999 to \$15.0 billion in FY 2000. All but 9 State agencies had a decline in participation from FY 1999. Since FY 1994, participation has been dropping, and that decline continued through July 2000.

Electronic Benefit Systems

The Personal Responsibility and Work Opportunity Act of 1996 mandates that all States must convert from paper coupon systems to an electronic benefit transfer (EBT) system before October 1, 2002. EBT systems issue and redeem benefits through the use of cards, electronic funds transfer networks, and point-of-sale technology in authorized retail food stores. In FY 2000, the movement to EBT continued to make monumental strides with \$11.0 billion issued in electronic benefits to a monthly average 5.4 million households. EBT is the primary issuance system and benefit type for the FSP, accounting for 74 percent of all issuance. In September 2000, 42 States (including the District of Columbia) were operating an EBT system, with 36 States issuing electronic benefits essentially statewide in place of coupons. At the end of the fiscal year, 75 percent of households were on EBT.

Direct Access

In FY 2000, State agencies issued \$2.2 billion in food stamp benefits via direct access, the second most prevalent form of issuance. In a direct access system, the issuance agent accesses the file to issue food coupon benefits to the household.

Mail Issuance

In FY 2000, State agencies issued \$1.1 billion in food stamp benefits by mail, a decline of \$.8 billion from the previous year. Mail issuance is the third most prevalent form of issuance in FY 2000, accounting for 7 percent of all issuance. Under mail issuance, coupons are mailed to the eligible household.

In FY 2000, 34 State agencies issued coupons through the mail. The dollar loss from mail issuance systems dropped from \$8.0 million in FY 1999 to \$4.7 million in FY 2000 although the loss rate rose slightly in FY 2000.

The mail issuance loss tolerance level is .5 percent at the county level, .35 percent at the administrative district, or .3 percent Statewide. Under the .5 percent tolerance level, the Federal Government would absorb a maximum loss of 50 cents per \$100 issued. On a Statewide basis, 9 States had a loss rate less than .3 percent and 19 States were under the .5 percent county standard. Using the .3 percent Statewide rate, the States' collective share of the loss would have been \$1.4 million. The change to EBT and the decline in participation have resulted in lower mail issuance and thus lower dollar losses of mailed coupons in FY 2000, resulting in savings for both the Federal and State Governments. As more States switch to or expand EBT, mail issuance volume and losses are expected to continue to decrease.

Cash-out

Cash-out projects are limited to certain pilot projects authorized in the Food Stamp Act that either have continued to operate since 1981 or that were approved prior to August 1996. While technically not considered part of the EBT system for issuance, redemption, and reporting purposes, States with FNS-approved cash-out issuance systems (for wage supplementation, welfare reform, or other approved demonstration projects) may issue cash-out benefits electronically, in place of paper checks. Cash-out benefits may be issued electronically via either direct deposit or debit cards which can be used at automatic teller machines to draw the funds. In FY 2000, \$189 million in cash-out benefits were issued to 117,000 households in 14 States. Cash-out represented 1.3 percent of issuance.

Administrative Costs

State agency administrative costs are affected by a number of factors including participation levels, the number and salary level of State staff, inflation, the location of State agency offices, type of issuance system, worker training costs, degree of automation, level of fraud control activity, etc. The Food and Nutrition Service (FNS) pays 50 percent of State agency administrative costs to operate the program. Total State agency administrative costs prior to Federal cost sharing were \$4.4 billion, up 7 percent from \$4.1 billion the previous year. In FY 2000, the Federal share of administrative costs increased almost 7 percent from \$1.893 billion the previous year to \$2.0 billion.

The Federal share of certification costs increased 7.9 percent in FY 2000 from \$1.006 billion in FY 1999 to \$1.085 billion. The Federal share of the certification cost per case (i.e., per household) per month increased from \$10.93 per case month to \$12.34 per case month. When caseloads decrease, there is a lag in States adjusting their work force, which would tend to cause the cost per case to increase until States can fully adapt to the change. Fixed and infrastructure costs such as space and computer equipment would also cause the cost per case to rise when caseloads decline.

Fraud Control

In FY 2000, State fraud investigations increased to 855,335, compared to over 828,477 in FY 1999, a 3 percent increase. The number of fraud hearings, prosecutions, and recipient disqualifications declined slightly from the previous year. In FY 2000, the number of recipients disqualified from the Food Stamp Program for an intentional program violation declined to 81,580, a 13 percent decline from the previous year. About 56 percent of the disqualifications came out of the administrative fraud hearing process.

On the Federal level, FNS operates the Disqualified Recipient Subsystem (DRS). DRS is a centralized national database, utilizing data submitted each month by all 50 States, the District of Columbia, Guam, and the Virgin Islands, that tracks individuals disqualified from participation in the FSP for intentional program violations. DRS assists States in assigning the correct penalty, which varies by the type and number of the offense, to individuals being disqualified. It also assists States in preventing these individuals from crossing State lines and participating in another State during the period of their disqualification. Because an individual may be permanently disqualified, these records are held indefinitely. As of September 2000, this Federal database had records on over 770,000 recipients and over 820,000 disqualifications.

Recipient Claim Collections

Recipient claims are established against any household that has received more food stamp benefits than it is entitled to receive. Claims fall in three categories: intentional program violation (fraud claims), inadvertent household error, or agency error. State agencies are entitled to 35 percent of fraud claims and certain inadvertent household error claims collected and 20 percent of the remaining inadvertent household error claims collected.

In FY 2000, State agencies established \$250 million in new claims against households for overissuances and collected over \$219 million. The average new claim established was for \$430. Collections increased 3 percent in FY 2000. Collections via recoupment, in which the State agency uses a part of the benefit otherwise payable to the household to pay an outstanding claim, decreased in FY 2000 due to the decrease in participation.

During the fiscal year over \$100 million out of the total State agency collections reported above was collected by the Federal Government through the Treasury Offset Program (TOP). As a participating partner in this program, State agencies notify the household and then send the delinquent claims through FNS to Treasury for possible collection under this program. This Federal program offsets amounts from any eligible Federal payment otherwise due a household and uses those funds to pay the outstanding claim. The collections are made by Treasury on behalf of the FSP. The Federal collections make up 46 percent of total State agency collections for FY 2000. In FY 2000, 51 State agencies participated in the Federal debt collection program. Since its inception in FY 1992, the Federal debt collection program has collected \$431 million in food stamp recipient claims.

FOOD STAMP PROGRAM ACTIVITY - FY 1999-2000

ACTIVITY	FY 1999	FY 2000	PERCENT CHANGE
PARTICIPATION AND ISSUANCE			
PERSONS (MONTHLY) (IN MIL)	18.2	17.2	-5.49%

NOTE: AMOUNT OF FRAUD MEANS THE AMOUNT OF THE FRAUD CLAIM. SOME CASES MAY HAVE INVOLVED THE SELLING OF BENEFITS BY THE RECIPIENT WHICH WOULD PRODUCE A DISQUALIFICATION FOR THE RECIPIENT BUT NOT A FRAUD CLAIM IF THERE WAS NO OVERISSUANCE. THIS WOULD TEND TO LOWER THE AVERAGE FRAUD AMOUNT.

TOTAL	\$148.6	\$171.5	\$186.0	\$199.6	\$213.1	\$219.6

TOTALS MAY NOT ADD DUE TO ROUNDING.

1/ SOME STATES ESTABLISH POTENTIAL FRAUD CLAIMS AS HOUSEHOLD ERROR CLAIMS INITIALLY AND THEN TRANSFER THE CLAIM FROM INADVERTENT HOUSEHOLD ERROR TO FRAUD CLAIM AFTER THE PROSECUTION OR FRAUD HEARING. THUS, THE SUM OF THE FRAUD INVOLVED FROM PROSECUTION AND FRAUD HEARINGS IS A BETTER MEASURE OF THE AMOUNT OF FRAUD CLAIMS ULTIMATELY ESTABLISHED.
